Foreword

- Creative Writing is a process that requires multiple attempts to master specific narrative skills. Students should engage in multiple writing cycles over the course of the semester. Each of the Topics should be assessed through each cycle the student engages in.
- Finished products may vary student by student (i.e. not all students must write the same memoir at the same time), but mentor texts should expose students to a variety of fiction, creative non-fiction, poetry, or drama.

How to use this document:

This curriculum guide is *not...*

- A lock-step instructional guide detailing exactly when and how you teach.
- Meant to restrict your creativity as a teacher.
- A ceiling of what your students can learn, nor a set of unattainable goals.

Instead, the curriculum guide *is* meant to be a common vision for student learning and a set of targets and success criteria directed related to grade-level standards by which to measure and report student progress and provide meaningful feedback.

The curriculum guide outlines the learning that is **most essential** for student success; it is our district's guaranteed and viable curriculum. The expectation is that every student in our district, regardless of school or classroom, will have access to and learn these targets. As the classroom teacher, you should use the curriculum guide to help you to decide how to scaffold up to the learning targets and extend your students' learning beyond them.

Within this document, you will find a foundational structure for planning sequential instruction in the classroom which can be supplemented with materials from any number of the linked resources.

Please consider this guide a living and dynamic document, subject to change and a part of a continuous feedback loop.

Creative Writing: Semester at a Glance

The four courses in the Creative Writing family develop student skills in the crafting of poetry, personal narrative, fiction, and the ongoing process of writing and revising work. Students learn from exemplar and mentor texts while providing each other with critical feedback in these workshop-focused classes. Creative Writing I is written under the CCSS 9-10 grade band, while Creative Writing II, Fiction Writing and College Creative Writing address the 11-12 grade standards. College Creative Writing adds the additional complexity of skills and competencies from DMACC’s ENG221 course.

Primary Resources: Learning Targets are linked below each unit scale. These include all recommended sources for the course.

Standards-Referenced Grading Basics

Our purpose in collecting a body of evidence is to:

- Allow teachers to determine a defensible and credible topic score based on a representation of student learning over time.
- Clearly communicate where a student’s learning is based on a topic scale to inform instructional decisions and push student growth.
- Show student learning of Level 3 targets through multiple and varying points of data
- Provide opportunities for feedback between student and teacher.

Start at Level 3 when determining a topic → score.

Scoring

A collaborative scoring process is encouraged to align expectations of the scale to artifacts collected. Routine use of a collaborative planning and scoring protocol results in calibration and a collective understanding of evidence of mastery. Enough evidence should be collected to accurately represent a progression of student learning as measured by the topic scale. Teachers look at all available evidence to determine a topic score. All topic scores should be defensible and credible through a body of evidence.

*****Only scores of 4, 3.5, 3, 2.5, 2, 1.5, 1, and 0 can be entered as Topic Scores.**

Evidence shows the student can...	Topic Score
Demonstrates proficiency (AT) in all learning targets from Level 3 & Level 4	4.0
Demonstrates proficiency (AT) in all learning targets from Level 3 with partial success at Level 4	3.5
Demonstrates proficiency (AT) in all learning targets from Level 3	3.0
Demonstrates proficiency (AT) in at least half of the Level 3 learning targets	2.5
Demonstrates some foundational knowledge (PT) toward all Level 3 targets	2.0
Demonstrates some foundational knowledge (PT) of some of the Level 3 learning target or standard	1.5
Does not meet minimum criteria for the standard or target.	1.0
Produces no evidence appropriate to the learning targets at any level (Is missing for one or more targets)	0
* foundational knowledge is defined by the success criteria for the learning targets or standards.	

Multiple Opportunities

Philosophically, there are two forms of multiple opportunities, both of which require backwards design and intentional planning. One form is opportunities planned by the teacher throughout the unit of study and/or throughout the semester. The other form is reassessment of learning which happens after completing assessment of learning at the end of a unit or chunk of learning.

Students will be allowed multiple opportunities to demonstrate proficiency. Teachers need reliable pieces of evidence to be confident students have a good grasp of the learning topics before deciding a final topic score. To make standards-referenced grading work, the idea of “multiple opportunities” is emphasized. If after these opportunities students still have not mastered Level 3, they may then be afforded the chance to reassess.

Guiding Practices of Standards-Referenced Grading

1. A consistent 4-point grading scale will be used.
2. Student achievement and behavior will be reported separately.
3. Scores will be based on a body of evidence.
4. Achievement will be organized by learning topic and converted to a grade at semester’s end.
5. Students will have multiple opportunities to demonstrate proficiency.
6. Accommodations and modifications will be provided for exceptional learners.

Anatomy of a Scale

Unit Narrative:

Provide an overview and context of the unit, big understandings, and student experience—including by not limited to vocabulary, inquiry-based questions/concepts, pacing and number of lessons

Topic Title:

Named topic in infinite campus, with approximate number of paced weeks

Exceeding Grade Level (ET):

Possible level four task listed including prior learning, cognitive complexity, integrated skills, real world relevance: authentic application beyond the classroom.

Achieving Grade Level (AT):

Level 3 targets are listed within the topic scale and are the grade level expectation for students in all classes.

Success Criteria (listed below the target) should be clarified/ revised by the building level PLC as they collaborate to unpack the Level 3 targets.

Item Bank:

Linked resources for each learning target. Guiding/Inquiry questions, ideas, and/or concepts are below the base line examples to ensure district wide coherence.

As a course that relies heavily on student choice and creativity, students will engage in guided cycles of writing and design that will result in completed products. Students will repeat the cycle throughout the course of the semester addressing all 5 Topics repeatedly.

Each cycle should include:

Topic I: Creative Writing

Topic Narrative/Overview: *In this topic, Students demonstrate they can write substantial pieces (such as poems, memoir, or short stories) to develop real or imagined experiences or events using effective techniques and well-chosen details that attend to the following criteria as appropriate to the genre of writing.*
