Eighth Grade ELA

2017-2018

Middle School. 8th grade language arts, often called ELA8, is the Des Moines Public Schools core curricular course for students in 8th grade in the study of reading, writing, speaking, and listening. Students grapple with increasingly complex texts in both fiction and non-fiction genres while studying the craft of skillful authors. Additionally, students in ELA8 focus their writing efforts on argumentative writing as they learn to become more effective communicators and critical consumers of information.

Standards-Referenced Grading Basics

The teacher designs instructional activities that grow and measure a student's skills in the elements identified on our topic scales. Each scale features many such skills and knowledges, also called **learning targets**. These are noted on the scale below with letters (A, B, C) and occur at Levels 2 and 3 of the scale. In the grade book, a specific learning activity could be marked as being 3A, meaning that the task measured the A item at Level 3.

The **Learning Goal** is the complete Level 3 of the scale.

Each lettered bullet point represents one **Learning Target**.

Each arrow bullet point represents an **unpacked** requirement of the target

Scale Level Symbols	
ⓐ	The targets on this level can be changed
ⓐ	Targets on this level can not be changed
➔	More targets can be added to this level
ⓧ	No targets are written at this level

When identifying a Topic Score, the teacher looks at all evidence for the topic. The table to the **right** shows which Topic Score is entered based on what the Body of Evidence shows.

Only scores of 4, 3.5, 3, 2.5, 2, 1.5, 1, and 0 can be entered as Topic Scores.

Evidence shows the student can...	Topic Score
Demonstrate all learning targets from Level 3 and Level 4	4.0
Demonstrate all learning targets from Level 3 with partial success at Level 4	3.5
Demonstrate all learning targets from Level 3	3.0
Demonstrate some of the Level 3 learning targets	2.5
Demonstrate all learning targets from Level 2 but none of the learning targets from Level 3	2.0
Demonstrate some of the Level 2 learning targets and none of the Level 3 learning targets	1.5
Demonstrate none of the learning targets from Level 2 or Level 3	1.0
Produce no evidence appropriate to the learning targets at any level	0

Some scales, particularly **Writing** and **Speaking & Listening** Topics, use an arrow for bullets instead of letters. While letters indicate **Learning Targets**, arrows indicate **Success Criteria** – think of them as the descriptors of what a student's total product or performance must show to score a 3 on that scale.

Multiple Opportunities

It's not about going back to do a retake, or back to redo something; it's about going forward, continually scaffolding student learning through multiple opportunities, and noting that improved learning. Our curriculum builds on itself. "Multiple opportunities" are about taking an assessment and connecting it to past topics. They're about allowing students to demonstrate their learning multiple times in units after their current unit or when learning is scaffolded into future units.

Multiple Opportunities suggestions will be noted in the guide to the right of the scales. Here you will see initial thinking of connections to other topics. This is also a place where teachers can add connections developed through their PLCs.

Guiding Practices of Standards-Referenced Grading

1. A consistent 4-point grading scale will be used.
2. Student achievement and behavior will be reported separately.
3. Scores will be based on a body of evidence.
4. Achievement will be organized by learning topic and converted to a grade at semester's end.
5. Students will have multiple opportunities to demonstrate proficiency.
6. Accommodations and modifications will be provided for exceptional learners.

Snapshot

Extended Topics

Year-Long

Organizing Principles

Some skills are so fundamental to the function and organization of a course that they persist throughout the course instead of being limited to a specific unit. These skills are described in this section of the curriculum guide and should be taught in tandem with unit-based instruction throughout the year.

Considerations

Comprehending Text

Evidence for this topic is collected three times per year using the MAP test. The Lexile score that results from this test should be translated to an SRG score using this scale. Teachers should assign a Topic Score based on the highest Lexile score earned on the MAP over the course of the year. In the first semester, this score does not contribute to the letter grade; it factors into the grade at the end of semester two only.

Mastering Vocabulary

This topic is collected and reported only in the first semester. Activities used to collect evidence for this topic should be rooted in text-based vocabulary, not the vocabulary words associated with the academic scales in this curriculum guide. Pay careful attention to what the Level 3 requires on this scale—this is often overlooked.

Applying Grammar and Mechanics

This scale is built differently from other scales in the guide to account for its tight vertical alignment with other courses. Be advised that the instruction of isolated skills, such as the basics of parts of speech, should be provided only when absolutely required—the emphasis in each grade level should be only those supporting skills required to help students access and achieve the Level 3 Learning Targets.

Constructing Writing

This topic is used specifically when either revising work generated by a different writing standard or when assessing writing that is not covered by the course's other writing topics.

Collaborating in Discussions

Use this scale when students are working in groups to process reading topics throughout the course. Strategies such as defined student roles and Socratic seminars help facilitate the collection of this evidence.

Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

Standard Language: CCSS ELA W.8.5

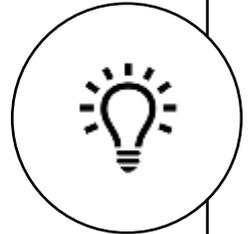

With some guidance and support from peers and adults, develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach, focusing on how well purpose and audience have been addressed.

Teacher Clarifications

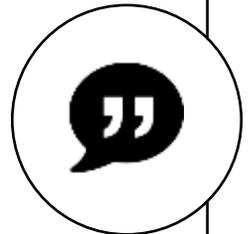

This topic is posted in both Semester 1 and Semester 2. Whenever possible, student extended writing at this level should be held to a minimum length of greater than one page.

Multiple Opportunities

Any time students are doing writing that is not Argumentative in nature, consider also assessing this topic. Keep in mind that to fairly measure Learning Target 3A, the task, purpose, and audience for the writing should be clearly articulated in the prompt or directions.

Teacher Clarifications

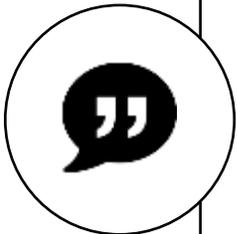

This topic is only posted in Semester 1. Instruction on basic word parts and roots/affixes may be warranted to support students in better understanding how to draw meaning from context.

Have a request for clarification? Submit it to jeremiah.schwennen@dmschools.org

Multiple Opportunities

Since this topic requires students to work with words in context in order to reach the Learning Goal, consider identifying challenging words in text you are reading for other purposes (such as short stories in Unit 1) and asking students to analyze the meaning of the word in question, using context as evidence to support their interpretation of the word's meaning.

Target 3B requires students to use MLA in-line citation format (following the quote with author name and page number or setting up the quote with author name and then following with page number in parentheses). Single page or website sources do not require the page number, though the root of the URL may be appropriate (ex: CNN.com)

Academic Vocabulary

Multiple Opportunities

Students should be able to circle back throughout the year. **Collaborating in Discussions** explicitly builds on these skills, and inferences and evidence are an essential part of the context-dependent portions of **Mastering Vocabulary**. This topic establishes the baseline for the way that argumentative claims can and will be supported with evidence (and commentary/explanation) in Unit 3, and it may be wise to emphasize this early on to set the proper tone for students.

Teacher Clarifications

Students should complete several drafts of this paper if possible—each draft is a piece of evidence. While the basic expectation of 8th grade extended writing is “multi-paragraph” in length, a fully revised piece should exceed a full page as a minimum length. To make this happen, you will likely need to start instruction on this topic early in the unit.

Multiple Opportunities

Revision of argumentative writing can provide evidence for **Constructing Writing**. Writing should showcase a student’s best grammar and mechanics, creating opportunities to measure the **Applying Grammar and Mechanics** topic as well.

The Revision Assistant software can support this standard in numerous ways. The following argumentative prompts are reserved for ELA8: [School Sports](#) and [Letter to Your Principal: Cell Phones](#)

Unit 4: The Author's Craft

Weeks

Organizing Principles

An open unit designed to flexibly give up time to the meatier Argument unit before it, Unit 4 can be the home of a novel study with text rich in complex language or a place for further work on non-fiction. The focus is on an analysis of text structure and how the parts contribute to the meaning of the whole. This unit also provides ample opportunity for re-teaching and re-testing of previous topics.

Don't forget:
MAP testing
at the end of
the semester.
